ClauseIQ Test Documents

Six separate fictional PDFs for testing the local legal-document analysis website.

All files are intentionally fictional. They are not valid legal instruments and are not legal advice.

Suggested test sequence

01_sample_nda.pdf
Non-Disclosure Agreement — confidentiality, term, destruction, liability.

02_sample_vendor_services_agreement.pdf
Services/vendor agreement — deliverables, fees, SLA, data, termination, liability.

03_sample_employment_agreement.pdf
Employment agreement — compensation, leave, IP, confidentiality, post-employment restrictions.

04_sample_lease_agreement.pdf
Lease/rental agreement — rent, deposit, repairs, entry, termination, handover.

05_sample_court_judgment.pdf
Fictional judgment — facts, evidence, findings, order and compliance.

06_sample_legal_notice.pdf
Legal notice — alleged breach, demand, response deadline and supporting evidence.

How to test

1. Select the matching document category in ClauseIQ before uploading, or choose Auto-detect and confirm the detected category.

2. Run the summary and risk review, then try grounded Q&A using questions about amounts, deadlines, clause wording, and parties.

3. Check obligation extraction against the stated payment, notice, return, and termination periods.

4. For OCR testing, these PDFs contain selectable text. To test OCR on scanned images, you would need image-only PDF fixtures as a separate set.

Sample Q&A; prompts

- NDA: How long do confidentiality obligations survive? What is missing from the destruction clause?
- Vendor: What is the availability target? What happens if the Customer terminates early?
- Employment: What is the notice period after probation? Which restriction needs legal review?
- Lease: When is the deposit returned? Which repair rule could create a dispute?
- Judgment: What amount was ordered to be paid, and within what period?
- Notice: What amount is demanded, by when, and what evidence is not attached?
